

Get Out! - 60-Second – Captioned for the Visually Impaired

MUSIC: "HINTERLAND WHO'S WHO" THEME

ANNOUNCER: (V.O.):

No matter where you live in Canada, wildlife is close by, so get out and see it.

[A raccoon]

Everyone can enjoy wildlife at any age, at any time of day, at any time of year.

[A frog, two old people on a bench, swan on a lake, a moose]

You don't need special skills or equipment. You just need to be ready to have fun to come face-to-face with the wonders of nature at home, in your community, on your own, with your friends. Time in the outdoors is never wasted.

[Kids interacting with animals]

Get to know your neighbourhood parks; camp out in your backyard; discover new wildlife; do a little gardening; hike a trail and take the family along. Explore the woods, no matter how small they are. And that's just a start.

[Host in a forest]
