

## **The Polar Bear - 30-Second – Captioned for the Visually Impaired**

MUSIC: "HINTERLAND WHO'S WHO" THEME

ANNOUNCER (V.O.):

A permanent resident of Canada's harshest environment, the polar bear is supremely adapted to its surroundings. But even the largest land carnivore is feeling the effects of climate change.

*[Polar bear walking on the snow]*

Because the ice is melting earlier each spring, it is more difficult for the polar bear to find its prey.
