

Urban Wildlife - 30-Second – Captioned for the Visually Impaired

MUSIC: "HINTERLAND WHO'S WHO" THEME

ANNOUNCER (V.O.):

Wildlife is all around us, even in big cities: birds, bats, deer, snakes.

[Ducks, river, birds eating from a hand]

Sadly, these and other creatures are often consider pests.

[Many house seen from the sky]

What about the trouble that we cause wildlife? As we continue to expand our communities, we destroy animals' natural habitat, forcing them to adapt to ours. But we can learn to live in harmony with wildlife by doing simple things.

[Someone closing a recuperation bin]
